

Message to tourists 2024

Welcome to this territory, where nature, faith, art, human ingenuity have expertly mixed to give everyone the opportunity to collect a piece of divine beauty.

The greatness of our architectural and landscape assets tells of the need to anchor one's life to something true and great.

Over the centuries, through the art promoted by the Church, the wonder of creation, of man made in the image of God, has been illustrated: the amazement that you will experience in front of our artistic works can also reveal to you a message of faith.

From the Metelliana Valley to Positano, from Tramonti to Agerola, smiles and glances will welcome you, ancient gestures and new technologies, newly restored churches and ruins of ancient testimonies of faith, perfumes, smells, flavours: give yourself the time to stop and let yourself be questioned by so many reality. Know how to allow yourself to be overcome by nostalgia for your beauty, which perhaps is dulled by tiredness and everyday routine and which here, in these lands of ours, will find new reasons to shine once again on your faces, in your eyes and in your gestures.

These coasts of ours, lapped by the sea, will tell you about sailors who bravely faced long journeys not only to trade but also to learn about new experiences of life and faith. On summer evenings listen to our sea which will speak to you of courage, trust, audacity, of ever new goals planned and achieved.

I wish you to spend days of rest, friendship and reflection, in the certainty that upon your departure, after the well-deserved rest, not only will you leave a piece of your heart here but you will take with you a piece of our history, of our faith and of our lives. Thank you.

+ Orazio Soricelli

Archbishop of Amalfi-Cava de' Tirreni
